INTO THE LIGHT - MUSIC VIDEO (Vimeo)

FOTO https://www.dropbox.com/

In her solo programme the extraordinary multi-instrumentalist Nora Thiele combines piano, percussion, acoustic instruments and electronics using a loop machine to create a unique one-woman orchestra. With a great love of experimentation and a joy in performing, she crafts multi-layered soundscapes. With a captivating stage presence, Nora Thiele takes the audience on an auditory journey into her very own improvised soundscape, spanning neoclassical, minimal music, global grooves and ambient sounds, captivating listeners with her virtuosity, sensitivity, intensity, uniqueness and freshness.

Rhythmic structures form the foundation for improvisations and compositions that draw on European and global traditions and are transformed into a new context. Meditative passages and rhythmic energy alternate, dissolving the sense of time. The result is an open, sonic language that transcends conventional genre boundaries.

Beyond World Music Nora Thiele combines frame drums from various cultures, piano, keyboard, electroacoustic sounds, live looping and vocals to create a unique feminine soundscape – inspiring, universal and captivating.

Nora Thiele – piano, percussion, vocals, loops, keyboard, live electronics
